Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,4-5,8-10,16-18, and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Onishi et al (#6,196,629).

With regards to claims 1,4-5,8, and 16:

Onishi et al show a child car seat (1A) comprising a base and a seat main body supported by the base. The base has a lower base portion (1C) and an upper base portion (16) that can be rotated with respect to the lower base portion. The seat main body is mounted on the upper base portion via a reclining mechanism. A shell of the seat main body and the upper base portion are connected via the reclining mechanism. The base is provided with a bridge. A belt fixing apparatus is mounted to the bridge. The upper base portion is provided with a belt mounting portion. The belt mounting portion is provided with a belt fixing apparatus.

With claim 9, armrest portions are provided on both sides of a seat portion in the shell.

With claim 10, the armrest portion of the shell is provided with a belt through hole.

Art Unit: 3636

With claim 17, a shell of the seat main body and the upper base portion are connected via the reclining mechanism. The base is provided with a bridge. A belt fixing apparatus is mounted to the bridge.

With claim 18, a recess portion is provided in the front surface side of the shell, and the bridge and the belt fixing apparatus are received in the recess portion.

With claim 20, the belt fixing apparatus is arranged in a center with respect to the lateral direction.

Response to Arguments

Applicant's arguments filed June 13, 2005 have been fully considered but they are not persuasive. The applicant has argued that the prior art of Onishi et al does not show the seat bottom 16 corresponding to the upper base portion. The examiner disagrees with this argument. It is best interpreted that Onishi et al show a child car seat (1A) comprising a base and a seat main body supported by the base. The base has a lower base portion (1C) and an upper base portion (16) that can be rotated with respect to the lower base portion. The seat main body is mounted on the upper base portion via a reclining mechanism. A shell of the seat main body and the upper base portion are connected via the reclining mechanism.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3636

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
